

Rim Trail DWID Failed to Complete Lead Service Line Inventory

All community water systems and non-transient non-community water systems are required to submit an initial inventory to their state or primacy agency **by October 16, 2024**. We failed to submit the initial lead service line inventory by the due date. As our customers, you have a right to know what happened and what we are doing to correct this situation.

**Service line inventories are the foundation from which water systems can take proactive steps to address lead service lines. Establishing an inventory of service line materials and identifying the location of lead service lines are key steps in getting them replaced. **

What should I do?

- If you are concerned about having a lead service line (pipe that connects your home to the water main), consult public water system. To learn how to find lead pipes in your home go to: [Protect Your Tap: A quick check for lead \(https://www.epa.gov/ground-water-and-drinking-water/protect-your-tap-quick-check-lead-0\)](https://www.epa.gov/ground-water-and-drinking-water/protect-your-tap-quick-check-lead-0)
- Although there is no confirmation of having a lead service line, you may wish to speak with a healthcare provider if you have a compromised immune system, have children in your home or are nursing as you may be at an increased risk if a lead service line is found during the initial inventory. For general guidelines on ways to lessen the risk of exposure to lead, reach out to EPA's Safe Drinking Water Hotline at 1-800-426-4791 or visit <https://www.epa.gov/ground-water-and-drinking-water/basic-information-about-lead-drinking-water#health>

What does this mean?

This is not an emergency, as we are in the process of completing the initial lead service line inventory. If it had been, you would have been notified within 24 hours.

You will be notified **within 30 days of finishing our inventory** if any lines are determined to be lead, galvanized requiring replacement, non-lead or are unknown.

What is being done?

We are working with the Arizona Department of Environmental Quality (ADEQ) to begin the process of building our Lead Service Line Inventory for submission to return to compliance.

For more information, please contact Rim Trail DWID at 928-472-7585.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Rim Trail DWID. State Water System ID#: AZ0404035.

Date distributed: **September 2, 2025**.
